Course Communication

There are several ways that you can communicate with your instructor and your classmates.

E-mail. E-mail is a quick and easy way to send messages to your instructor and classmates.

Discussion Board. The discussion board is a way to communicate with the entire class at once. It is also a way to post questions about an item—this may answer a similar question for someone else in the class.

Phone. Please do not hesitate to call your instructor at 715-365-4440. If your instructor is not there, please leave a message.

Face-to-face. Your instructor's office is located in the Tamarack Center Room 212-1. Everyone is welcome to meet and talk with the instructor in person.

Remember to Log Out

When you're done using Blackboard, remember to log out and shut down the Web browser. This is especially important if you're using Blackboard in a computer lab where other students will be using your computer. If you do not log out, the student who uses the computer next could gain access to your records. You wouldn't want that to happen, so please remember to log out. The best way of making sure your work remains private is to shut down the Web browser when you're done using the computer in a public facility.

Special Note

This is a self-directed course. However, ***there are assignment and exam due dates***. The exam and assignment due dates are listed in your online syllabus. As a courtesy, your instructor may also post in the ***Announcements*** section in Blackboard when assignments and exams are due. For most people, setting up a weekly routine will help to ensure that you complete all the assignments by the due dates. **Good luck and see you online.**
